SMART Hub

Why SMART Suite

Embedded

Seamlessly connect SMART Suite to any accounting software, ERP application, or system of record.

Open

Initiate or receive payments and data from any bank account.

Streamlined

Make, receive, and research payments of any type, using any rail, from a single platform.

Unified

Quickly build and manage your buyer/supplier network, validate counterparties, facilitate rules-based early payment financing.

Real-Time

Instantly initiate and synchronise payments for frictionless disbursements and collections.
